

## **Raincheck Status Report Added**

A new column, the Raincheck Status Report, is being added to the Technical Supplement to communicate the status of previously issued rainchecks. In many cases, the Library Programs Service is unable to obtain needed copies of a rainchecked publication. This information will be reported so that depositories may delete that title from their list of pending rainchecks.

In other cases, LPS will report on rainchecks for which attempts to obtain stock are ongoing.

## **Separate Paper Shipping Lists Report Discontinued**

The Separate Paper Shipping Lists report number 1994-02 in this issue will be the last one printed. This report is no longer needed, since, beginning in 1994, separate paper shipping lists have their own numbering sequence and are no longer included in the regular paper shipping list numbering.

The sequential segment of the separate paper shipping list numbers (following the 2 digits signifying the year) begins with the number 9: 94-9001-P, 94-9002-P, etc. This change in numbering was announced in Administrative Notes, v. 15, #2 (1/15/94).
